Everybody's Talking!

Duck dynasty: Who needs pesticides in Thailand? Not the rice farmers in Nakhon Pathom province, west of Bangkok. That's because each year flocks of ducks are brought in to eat weeds and pests, such as snails. The ducks come from duck farms, and the farmers appreciate the free food their ducks eat from the rice paddies. Rice farmers benefit because they can cut back on the use of chemicals, and their fields get fertilized. The ducks move around the rice fields for a few months and then return to their farms to lay their eggs. Using ducks for this purpose is known as "*ped lai thoong*."

Replicating art: A woman from Saint Petersburg, Russia, took an art challenge seriously. Liza Yukhnyova heard about the #gettychallenge, in which people recreate a work of art using household items, and then take a photo of the result. Bored during the COVID-19 pandemic, Yukhnyova decided to create one piece of art each day for as many days as she could. So she picked famous paintings, and using makeup and items from around the house, she turned herself into women from cultures around the world. Yukhnyova has a degree in art history, so she has a wide base of knowledge about art.

"Great literature, past or present, is the expression of great knowledge of the human heart." —*Edith Hamilton*

"Your life will be rich for others only as it is rich for you." —*David McCord*

Did You Know...

Northern dogs: "Reindeer dogs" are a type of hot dog sold in the northern U.S. state of Alaska. These are sausages made with caribou, pork, and beef, and served in a bun. Accompaniments include onions glazed with cola, mustard, and cream cheese.

Seashell delights: The Monastery of São Vicente de Fora in Lisbon, Portugal, houses a unique attraction: a seashell gallery. It contains a beautiful and artfully arranged collection of seashells from the country's shorelines.

Florence Nightingale: Known as "The Lady with the Lamp," Florence Nightingale is considered the founder of modern nursing. She was named Florence after the Italian city where she was born in 1820. Her family moved to England in 1821.

Bouncy pickle: There is a law in the U.S. state of Connecticut that says pickles must bounce. The law stems from an incident in 1948 when two men were arrested for selling rotten pickles. The new law established that if a pickle bounced, it was safe to eat.

Can't go backward: Kangaroos are one of the few animals that can't walk backward. They can only hop forward using both feet at the same time and their tail for balance.

On the Lighter Side

Animal testing is a terrible idea—they get all nervous and give you the wrong answers.

"Doctor, I think I'm suffering from memory loss."
"Have you ever had it before?"

A bird does not sing because it has an answer. It sings because it has a song.

Today is the tomorrow you worried about yesterday. But not enough.

Did you hear about the invisible man who married the invisible woman? Yeah, their kids aren't much to look at, either.
